Seminar Description:

- **REVIEW OF NEC 2023 CHANGES:** Significant NEC 2023 Articles will be reviewed. These will need to be accounted for during design and construction of projects which have been permitted, after State Adoption of the NEC 2023. NEC Articles impacting your work will be highlighted!
- Significant NEC 2023 Articles will be reviewed as to changes from NEC 2017 & NEC 2020 Articles.
- State of Ohio Adoption of NEC 2023 for Commercial is on 3/1/24; adoption of NEC 2023 for 1, 2, and 3-Family Dwellings is expected shortly thereafter.
- Multiple Exhibitors will be at the seminar with electrical products to review.
- The information and concepts presented will be of great value to you for years to come. The basics of electrical safety follow a common path, to seek to reduce the likelihood of shock and fire hazards by sound installation practices. Regardless of your role in the electrical industry, you can contribute to improving electrical safety. We all learn from technical instruction and the printed material but we also learn from each other and we learn together.
